This year's seminar, **with an emphasis on contractor awareness**, will focus on the critical training requirements which confront both aggregate producers and contractors desiring to do business on a MSHA or DMME regulated site. Attendees will be introduced to information and the tools necessary to protect their personnel, avoid penalty assessments and ensure the continued operation of their businesses.

VTCA has been working in conjunction with MSHA to produce a quality DVD program which will benefit all levels of management in making their operations safer. Portions of the DVD will be discussed and it is hoped that it will soon be available to both aggregate operations and independent contractors. Anyone who has a vested interest in both the safety of their employees and the safety of any independent contractors who may work on their sites should attend these sessions, including senior managers, front-line supervisors, hourly workers and independent contractors who work on mine sites, MSHA regulated or not.

**Portions of the Safety Seminar program can count toward  
MSHA Annual Refresher Part 46 training!**

**Tentative Agenda**

7:30 am	Registration Open (refreshments available)
8:00 am	Welcome & Introductions Jeff Harmon, Vulcan Materials
8:10 am	MSHA Update & Accident Trends Sam Pierce, Southeastern Assistant District Manager, MSHA

**Corporate Lunch Sponsors**

To recognize your support, your Company's name and logo will be placed in the Seminar Program that is handed out to each attendee, on the tables during lunch and verbally recognized during the seminar. In addition to the onsite publicity, your company's commitment to our organization will be recognized in the January *Blue Top*.

**Don't Wait - Register NOW!**

Early registration ends November 18, 2011

Registration forms are available for download at [www.vtca.org](http://www.vtca.org)
